## FEDERAL COMMUNICATIONS COMMISSION

### Public Information Collection Approved by Office of Management and Budget

April 17, 1996.

The Federal Communications Commission (FCC) has received Office of Management and Budget (OMB) approval for the following public information collection pursuant to the Paperwork Reduction Act of 1995, Pub. L. 96-511. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. Notwithstanding any other provisions of law, no person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Questions concerning the OMB control numbers and expiration dates should be directed to Dorothy Conway, Federal Communications Commission, (202) 418-0217.

Federal Communications Commission

OMB Control No.: 3060-0054.

Expiration Date: 2/28/99.

**Title:** Application for Exemption from Ship Radio Station Requirements FCC Form 820.

**Estimated Annual Burden:** 233 hours annual burden; average 1 hour and 10 minutes per respondent; 200 respondents.

**Description:** FCC Rules require this collection of information when exemptions from radio provisions of statute; treaty or international agreement are requested. The data is used by the examiners to determine the applicants qualifications for the requested exemption.

OMB Control No.: 3060-0541.

Expiration Date: 2/28/99.

**Title:** Transmittal Sheet for Phase 2 Cellular Applications for Unserved Areas.

Form: FCC Form 464-A.

**Estimated Annual Burden:** 1,660 total annual hours; average 10 minutes per respondent; 10,000 respondents.

**Description:** The information is used by the Commission to determine whether the applicant is qualified legally, technically, and financially to be licensed as a cellular operator. Without the information the Commission could not determine whether to issue licenses to the applicants that provide telecommunications services to the public. The transmittal sheet facilitates application intake and other processing functions. The applicant must certify on the form that the application is complete in every respect and contains all the required information.

OMB Control No.: 3060-0321.

Expiration Date: 2/28/99.

**Title:** Sampling systems for Antenna Monitors - Section 73.68.

**Estimated Annual Burden:** 200 total annual hours; average 2 hours per respondent; 100 respondents.

**Description:** Section 73.68(b) requires that licensees of existing AM broadcast stations with antenna monitor sampling systems, meeting the performance standards specified in the rules may file informal request for approval of their sampling systems. Section 73.68(d) requires that a request for modification of the station license be submitted by the FCC when the antenna sampling system is modified or components of the the sampling system are replaced. The data is used by staff to maintain complete technical information regarding licensees to insure that the sampling system is in full compliance with the rules and will not cause interference to other facilities.

OMB Control No.: 3060-0175.

Expiration Date: 2/28/99.

**Title:** Station Main Studio Location Section 73.1125.

**Estimated Annual Burden:** 68 total annual hours; average 30 minutes per respondent; 135 respondents.

**Description:** Section 73.1125 requires AM, FM or TV licensees to locate their main studio at any point within the station's principal community contours. If the station relocates its main studio the licensee is required to notify the Commission. This notice assures that the station is located within the principal community contours and notifies FCC of the change in mailing address.

OMB Control No.: 3060-0160.

Expiration Date: 2/28/99.

**Title:** Directional Antenna Monitoring Points - Section 73.158.

Form: N/A.

**Estimated Annual Burden:** 320 total annual hours; average 4 hours per respondent; 80 respondents.

**Description:** Section 73.158 requires licensees of AM radio stations using a directional antenna system to file an informal application to modify their station license for changes in field monitoring point and for routing description to each. It also requires licensees to file a request for a corrected station license when the descriptive routing to reach any of the monitoring points is no longer correct. The data is used by FCC staff to alleviate electro magnetic interference and issue a new license.

Federal Communications Commission.

## FEDERAL MARITIME COMMISSION

[Docket No. 96-09]

### Southern Pacific Transportation Co. and the Atchison, Topeka & Santa Fe Railway Co. v. Port of Long Beach; Filing of Complaint and Assignment

Notice is given that a complaint filed by Southern Pacific Transportation Company and The Atchison, Topeka and Santa Fe Railway Company ("Complainants") against Port of Long Beach ("Respondent") was served April 17, 1996. Complainants allege that Respondent has violated section 10(d)(1) of the Shipping Act of 1984, 46 U.S.C. app 1709(d)(1), in connection with a new item in Respondent's tariff that imposes an access charge for use of Port owned rail tracks, contrary to provisions of existing agreements between Complainants and the City of Long Beach.
